In this round no material was received for the following modules and hence these modules were not moderated: AC500, ST500, AP600, EX600, DB700, and PR76n.

Table 1 and figure 1 indicate the number of papers moderated for the April and September rounds since 1995.

Table 1 Total Modules Moderated

	1995	1996	1997	1998	1999	2000	2001	2002	2003	2004
April	71	62	81	73	98	104	55	93	80	65
September	85	73	92	71	115	145	73	129	114	59

Figure 1 Modules Moderated

In this round seventeen ITPs submitted material, up two on the previous round.

Moderators stated the following suggested changes to the prescription:

AP360	Nil
BS230	Nil
DM700	given that only one ITP was moderated, any changes should be made in consultation with that ITP.
EC320	Nil
EC700	Nil
HD600	Nil
HM600	Nil
HS320	Nil
IN610	The current prescription requires a good revision, and some content needs to be updated.
IP500	New syllabus in 2003; new emphasis on application in ICT-no changes requires just yet. Let it run for another round then review it.
MA500	Need to clarify where it says "presentations need not be www-based" as "create HTML coding etc" may contradict this.
OM500	Needs revision – last revision pre 1995?
OO600	I was concerned that the module title did not fit the content. In fact it is wrong. Pages 29 & 35 of the Blue Book gives what I consider is the right title "OO600 Object Orientated Analysis & Design" – the programming comes in OO700. Change the title.
PR65n	Nil
QA600	Nil
RA600	Nil
SP500	Nil
SP510	Nil

The above will be taken into consideration by the NACCQ Curriculum & Quality Working Group for the next edition of the "*bluebook*".

Find on the last page the latest CIC/Diploma Moderation Schedule, which is through to the end of 2007

Due at NACCQ office in Hamilton by 14th March 2004 are:

AP320	AP370	BS340	SD320		
BC500	EP500	MB500	PP400	PP490	SP520
WN500					
AN600	DA600	DB620	HS600	MP600	NE600
NM61n	OS610	PR630	SI600	TS600	
BA700	GW700	PR70n	PR75n	TR700	

My thanks again to my fellow moderators and the work of our Executive Officer, Viv Wetere, for the important part each plays in the ongoing process of moderating NACCQ qualifications. Without them this ongoing moderation process would not happen.

CIC/NDBC External MODERATION

GUIDELINES

All modules will be covered in a three yearly cycle as shown in the moderation schedule attached.

It is the responsibility of each polytechnic to get any module they are undertaking for CIC/NDBC that is not covered by this list, moderated independently by another polytechnic.

What Must Be Sent For Moderation (except PJ700)

For each module:

1. Module Outline

This is what is usually given out to students at the commencement of the module.

It must include at least:

- Module Name and Code
- Number of class contact hours (supervised learning)

2. Assessment Schedule

(This may be part of the Module Outline)

It must show:

- How many assessments there are
- How a pass and a merit pass are obtained

For each assessment:

- What is going to be assessed
- Type of assessment (Test, Case Study, etc.)
- Weighting

3. A Copy of All Assessments

The actual assessments as given to the student

The number and numbering of these assessments must match the Assessment Schedule.

4. Marking Schedules

Model answers (where appropriate)

A breakdown of Criteria Accessed

For PJ700 PROJECT

Send Module Outline, Assessment Schedule, Marking Schedule (as outlined above),

plus other material which shows:- How a project is selected then approved

How Project Proposals are assessed

How projects are controlled

How milestones are assessed

How the final projects are assessed.
